STATEMENT IN SUPPORT OF PETITION TO MAKE SPECIAL

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Statement is in support of the Petition to Make Special filed in connection with the above-identified application. There is an infringing product actually on the market in the United States.

A rigid comparison of the infringing product with the claims of this application has been made. In my opinion, at least some of the claims are unquestionably infringed.

A careful and thorough search of the prior art was caused to be made by the International Searching Authority during prosecution of PCT/GB03/01685, which is the international application that forms the basis for the instant application.

Information concerning the prior art search has been provided to the Examiner in the International Search Report dated 17 July 2003. The search was conducted by the European Patent Office.

The claims of the international application are broader than the claims of the above-identified application. More particularly, applicants have added the subject matter of claim 3 of the international application to pending claim 1 of the instant

application in the Preliminary Amendment dated April 28, 2005. Certain other changes to the claims were also made in the Preliminary Amendment.

Finally, it is submitted that all the claims of the instant application are allowable over such art.

Respectfully submitted,

FAY, SHARPE, FAGAN,
